

2K WATCH CAMERA

- ❑ Video and Audio Recording
- ❑ Waterproof (water-resistant)
- ❑ Able to record Video in Low Light Condition

Description

It's the first 2K HD 1296P watch camera in the market. With its stylish and modern design, this spy watch camera is versatile enough to wear to parties and business meetings. Additionally, the spy watch actually works and functions as a common watch.

At the same time, it delivers covert surveillance that no one will suspect. Behind the watch face, there is a HD hidden camera which can record 1296P high definition video and audio. Additional, it can also support separate audio recording, you can use it as a voice recorder. And because of the built-in motion sensor, this 2k spy watch will start recording when it detect any movement.
