

HI-TECH EXPERT BUG DETECTOR

- ❑ Lightweight and compact
- ❑ Detects RF signal
- ❑ Visual multi-colour OLED display
- ❑ Instantly recognizes most frequency bands
- ❑ Vibration signal

Description

This Hi-Tech Bug Hunter detects most kinds of RF signals used by hidden microphones and spy cameras to transmit clandestine information about YOU. Use this smart tool to quickly find hidden microphones and cameras that can be recording and transmitting your conversations and activities. Many people use this to scan hotel rooms, meeting rooms, vehicles, government offices, public buildings, schools and much more.

Detecting bugs before they can invade your privacy can be a very effective step in protecting from identity theft, financial theft, blackmail, jealous spouses and overbearing prosecution.
