## Description

The power bank Wi-Fi camera is a multi-functional device that not only allows you to charge your mobile device on-the-go, but also provides live streaming video surveillance. This makes it the perfect tool for those who need to keep an eye on their surroundings without attracting attention to themselves. In addition to its surveillance capabilities, the power bank Wi-Fi camera also doubles as a portable power bank. This means that users can easily charge their mobile devices while on-the-go, making it a convenient device to have while traveling or during long commutes.
