

PORT USB CHARGER WIFI HD CAMERA

- ❑ Simple appearance and easy to use
- ❑ Working while charging
- ❑ Point-to-point connection, can work without a network connection

Description

The mini invisible lens with 110-degree angle is a unique feature that is built into a desktop charging station. This lens is so discreet that it is virtually invisible to the naked eye. You can use it as a desktop charging station, and also as a camera for surveillance purposes. This device offers a range of resolutions, with 1080p and 720p app monitoring resolution ratios that can be manually adjusted according to your network conditions. This feature allows you to get the best possible video quality based on your current network speed and conditions.
