

HI-TECH LENS FINDER WITH SIGNAL DETECTOR

- ❑ Illuminates Hidden Lenses
- ❑ High Power & Adjustable Flashing LED Lights
- ❑ Infrared Detection Feature
- ❑ Signal Frequency Detection

Description

Many hidden cameras do not transmit wirelessly, making the Spy Camera Detector essential for effective privacy protection. It detects camera lenses, infrared systems, and RF signals, covering GSM, 3G, 4G, WiFi, and Bluetooth.

Featuring a bright LED viewfinder with up to 10 meters range and adjustable red LED flash rate it accurately locates both covert and visible cameras. RF detection distances include GSM, 3G/4G and WiFi. Powered by a 400mA rechargeable lithium battery with USB Type-C charging, it delivers up to 1.5 hours of use after a 2-hour charge

Product Features :

- ❑ Bright LED Viewfinder: Up to 10 meters
- ❑ Adjustable Red LED Flash Rate
- ❑ Infrared Detection: Covers 750 – 1000NM
- ❑ RF Detection Range: 10 ~ 12000MHz, including GSM, 3G, 4G, WiFi, and Bluetooth.
- ❑ RF Detection Distances: GSM: 5cm to 6m, 3G/4G: 20 to 100cm, WiFi: 10 to 100cm.
- ❑ Rechargeable Battery: 400mA lithium battery
- ❑ Working Hours: 1.5Hrs
- ❑ Charging Time: 2Hrs
- ❑ Product Size (LxWxH): 11cm(L) x 5.9cm(W) x 1.4cm(H)
- ❑ Weight: 80g

ORDERING INFORMATION

HI-TECH LENS FINDER WITH SIGNAL DETECTOR

Included Accessories:

1 x Type-C Charging Cable
1 x Test Lens
Manual

Warranty Card
