

# PORT USB CHARGER WIFI HD CAMERA

- ❑ Simple appearance and easy to use
- ❑ Working while charging
- ❑ Point-to-point connection, can work without a network connection

## Description

The device features a discreet 110-degree mini invisible lens built into a desktop charging station, functioning both as a charger and a hidden surveillance camera. Once connected to WiFi, it allows you to monitor your home, warehouse, or shop remotely via smartphone or tablet, providing live video and recorded footage from anywhere. Ideal for keeping an eye on children, pets, or valuables, it also includes motion detection with push notifications to alert you instantly to any suspicious activity.
