

2K ALARM CLOCK WIFI CAMERA

- ❑ 2K Full HD resolution streaming
- ❑ Wi-Fi for remote viewing and recording
- ❑ MicroSD slot for storing recordings
- ❑ Motion detection alerts and motion based recording
- ❑ Night vision up to 10m

Description

The 2K alarm clock camera is a discreet surveillance device with a 110° wide-angle lens hidden behind the screen, making it completely invisible while capturing full room coverage.

It records in clear 2K HD with time/date stamps for easy playback and sharing on PC or Mac (via VLC). It also features motion detection recording to save battery and storage space.

Product Features :
