

HI-TECH VOICE RECORDER

- ☒ Audio Recording Function.
- ☒ Advanced noise reduction technology filters
- ☒ Smart voice activated functions.
- ☒ Mini & Portable.

Description

The Hi-Tech Voice Recorder is a versatile recording device designed for clear, high-quality audio. Its advanced noise reduction technology filters out background sounds, ensuring crisp recordings every time.

Beyond recording, it doubles as an MP3 player, allowing playback through the built-in speaker or headphones. With a user-friendly interface and intuitive controls, it's easy to operate.

The rechargeable battery provides up to 3–4 days of continuous recording and 14 days of standby time, with a low battery indicator to keep you informed at all times.
