

HI TECH GPS TRACKER ADVANCE

- ☒ Real-time Tracking
- ☒ Built-in high sensitive GPS & GSM
- ☒ Massive 10,000mAh battery
- ☒ Playback route Up to 90 days
- ☒ Different smart working modes

Description

GPS trackers are essential for reliable, long-term tracking. This portable, IP67 waterproof device features a powerful 10,000mAh battery for extended use without frequent charging. Designed with a strong magnetic base, it easily attaches to vehicles or equipment for secure, on-the-go tracking. Its rugged build withstands rain, dust, and harsh conditions.

With GPS and base station positioning, it delivers accurate, real-time tracking via GSM/GPRS. Using the free mobile app (Android & iOS), you can monitor live locations, review history, and analyze movements anytime.

Specification:
